Books Descripton :

They were high school sweethearts, but money and pride came between them. Can their twin sons trick them into falling in love again? Reid Hudson would be happy on his Missouri farm except he'd always thought he'd be sharing it with his soulmate, Emerson. Instead, he gets six months with each of his boys and splits the holidays. Not the life he'd planned. Emerson Mahoney hadn't expected her family to fall into a fortune. When her new husband flatly refused to use any of their money to ease the financial burden from the birth of their twins, she couldn't believe how hard-headed he was. She'd taken the opportunity to fly to the Swiss Alps and become a temporary member of her father's new business team, never expecting it to last eight years. When one of their boys deliberately misses his flight to stay on the farm with his twin brother in Missouri, Emerson is forced to come back to the states and confront the husband she is still married to and the man she'd never fallen out of love with. When fuel shortages ground all airplanes, she's forced to spend a month on the farm. Can their twins trick them into falling in love again?
